

A Planet of Mine: MasterMine Edition, incoming mine-blowing demo!

Paris, September 26, 2025. Discover the preview of ***A Planet of Mine: MasterMine Edition*** by Tuesday Quest, at Steam Next Fest from 13 to 20, October!

In this original **strategic builder**, choose your gang of cute animals and **conquer space**! Collect resources by master-mining a planet, exploit your solar system and meet other **factions**.

This **pun-chy 4X** is designed either for casual or serious gamers. Whether you like to manage items or to explore space, ***A Planet of Mine: MasterMine Edition*** offers countless hours of games and challenges.

About A Planet of Mine: MasterMine Edition

Choose among 20 different factions ranging from space pirate chickens to nuclear scientist elephants! **Build** your base and **manage** the collection and production of your resources. **Advance** your technology by **unlocking** scientific researches. **Trade** with

other factions or go to **war** for a system-wide domination! **Plan your strategy** wisely and stay focused: you may encounter surprising stuff...

Controls have been carefully tailored for portable consoles like the Nintendo Switch™, Steam Deck, ROG Ally, and Lenovo Legion.

Key Features

Play as you please

Go on a mission, create your own star system, or generate a random game. You're in command!

Bring different species together

Select your winning team among 20 funny animals! Combine their skills to optimize your scores.

Share your games

You can create solar systems with their own rules and share them with your friends, thanks to a unique code.

Reckon with other factions

Trade resources with the AI, fulfill missions for your allies or go to war to expand your empire.

Explore loads of new content

Discover new species to play with, sciences and buildings, in new missions crafted by the team.

About Tuesday Quest

Tuesday Quest is an indie studio based in Paris, France. Founded in **2013**, it develops and publishes its own productions on mobile and PC. ***Hungry Cat Nonogram***, ***Puzzle Forge 2*** or ***A Planet of Mine*** are among its most popular titles.

The studio is currently working on several projects including this ***Mastermine Edition*** of ***A Planet of Mine***.
